Governor Cooper we have to everything we can to stop this destructive pipeline. The time of the fossil fuel age needs to behave just as the dinosaurs it is made of and go extinct. We have evolved passed needing this and other unclean forms of energy. The human race should not be killing itself to power itself. I urge you to stop this. There are so many other forms we could use wind, solar, and hemp. I want to see my children grow up and have a future, I am not so sure that will be possible if we don't change course here and now. Do what is best for everyone and kill the pipeline! Thank you for your time to hear from a very concerned mother, North Carolinian and human.
